

**Sparking
Imaginative Learning**

**Mad Science presents
Little Scientists
this fall at BNS!**

Little Scientists

*Some of the exciting hands-on topics
we'll do this semester are as follows:*

Color Lab- Make a new friend, Mr. Roy G. Biv, while learning about the colors of the rainbow and experiment with your creative side while we mix colors.

Taste and Smell - Join us for a journey through your taste buds and sense of smell.

Space Frontiers- Take a trip through the solar system and sign up for the Mad Science Astronaut in training program where you can learn all about the elements of space.

Listen Closely- Experiment with a wave motion model and a twirling tube to understand how sound travels in waves and can be heard in a variety of pitches.

Keep in Touch- Learn how to understand the world with your sense of touch as we discover that objects are safe to touch while others are not.

Eye to Eye- Use magnifying glasses, kaleidoscopes and binoculars as we interact with a variety of optical illusions to illustrate that our eyes can sometimes play tricks on you.

Digging for Dinosaurs- Discover the differences between meat eating and plant eating animals and look at some dinosaur teeth up close.

*A minimum of 10 students must be enrolled in order for each class to run.
Final decisions to run or cancel will be made one week before the start date
of the program. There are no refunds for programs children fail to attend.*

Mad Science is coming to: Briarcliff Nursery School

Details:

**Thursdays from 12:30-1:30PM
for ages 3-4**

A supervised lunch time will take place
